

Breast Implant Profile Spectrum

WHAT CHANGES AS PROFILE INCREASES	TOWARD LOWER PROFILE		TOWARD HIGHER PROFILE	
	↔	Wider breast footprint	→ ←	Narrower breast footprint
	↓	Less projection	↑	Greater projection
	⌒	More subtle contour	⌒	More upper pole fullness
	≈	May feel slightly softer	≈	May feel slightly firmer

KEY TAKEAWAY

All four implants above contain the same volume (400 cc). The only difference is the width and projection. Notice how the difference between Moderate and High Profile is subtle, while the difference between Low Profile and Extra High Profile is much more dramatic.
